IV. PRESENTATION OF ANNUAL REPORT AND APPROVAL OF THE FINANCIAL STATEMENTS FOR THE PRECEDING YEAR

The Chairman called Mr. Jericho P. Go, President and Chief Executive Officer of the Corporation, for the next item in the agenda which is the Presentation of the Annual Report and Approval of the Financial Statements for the year ended December 31, 2025.

Mr. Jericho P. Go reported that RCR, through its diversified portfolio, has posted strong operational and financial results post Initial Public Offering (“IPO”), inclusive of calendar year 2025, mainly driven by higher-than-industry occupancy rate of 96% and the infusion of nine (9) new assets. Further, RCR maintained a robust financial position with zero debt.

Due to RCR’s solid performance, RCR delivered increased value to shareholders in the form of regular cash dividends with consistent quarter-on-quarter growth and was recently included in the 30-member Philippine Stock Exchange (“PSE”) Index.

Since its IPO on September 14, 2021, RCR has continuously delivered on its promise of scale, strength, and sustained growth. RCR launched with the largest REIT IPO in the Philippines at Php23.5Billion, establishing a strong foundation for long-term value creation.

RCR’s portfolio has consistently expanded through disciplined infusions—from its initial 425,000 square meters of purely office assets, growing to a multi-asset REIT with over 1.15 million square meters of Gross Leasable Area (“GLA”), consisting of office and mall assets, by the end of 2025. RCR likewise expanded its geographical presence from nine (9) key cities at listing to twenty-five (25) key locations nationwide. The market capitalization of RCR as of December 31, 2025 amounted to Php156.78Billion.

The total number of assets of RCR is now thirty-eight (38) from twenty-nine (29), due to the infusion of nine (9) mall assets from the Sponsor company, Robinsons Land Corporation (“RLC”), via tax-free property-for-share swap. The newly infused assets increased total mall GLA to 613,000 square meters made up of twenty-one (21) assets, accounting for 53% of RCR’s total GLA, while office GLA comprises the remaining 47%, equivalent to almost 539,000 square meters from seventeen (17) office assets. To date, total GLA of RCR is 1.15 million square meters, representing a 2.7x growth from IPO, with a blended occupancy rate of 96% and a healthy Weighted Average Lease Expiry (“WALE”) of 4.02 years.

Thereafter, the President discussed the tenant mix as of the end of calendar year 2025, which comprised 47% retail tenants and 46% Business Process Outsourcing (“BPO”) tenants, making up the majority of the blended tenant mix.

On the sustainability front, RCR currently has nine (9) malls equipped with solar power facilities inherited from its parent company, RLC, a recognized leader in solar energy adoption among Philippine mall operators. Beyond solar energy, RCR continued to implement complementary green initiatives across its mall operations, including rainwater harvesting systems, greywater recycling for landscape irrigation, energy-efficient chiller systems, and Electric Vehicle (“EV”) charging facilities. The President likewise highlighted the most recent solar facility installation in Robinsons Tuguegarao, which became operational in March 2025 with a maximum capacity of 1,485 kilowatt-peak (“kWp”).

RCR maintained a firm commitment in creating sustainable spaces for its office tenants. As a testament to its sustainability goals, RCR secured green certifications for eleven (11) out of its seventeen (17) office assets. This comprises three (3) assets certified under Leadership in Energy and Environmental Design (“LEED”) and eight (8) properties under Excellence in Design for Greater Efficiencies (“EDGE”).

The eleven (11) certified assets represent more than 485,000 square meters of green-certified leasable area, equivalent to 90% of RCR Office total GLA. RCR shall continue to acquire green certifications for its buildings to add value to its stakeholders and targets to certify all office buildings by the end of 2026. As of October 2025, ten (10) RCR office buildings in Metro Manila, representing approximately 81% of the REIT’s total office GLA, have successfully transitioned to being fully powered by renewable energy through MPower, Meralco’s retail electricity supplier.

The President also discussed the completion of the renovations of three (3) office lobbies, namely Robinsons Equitable Tower (“RET”), Robinsons Summit Center, Cybergate Cebu, and the new hotel-like lobby of Cyberscape Alpha on January 31, 2026. These initiatives are expected to improve tenant experience, support lease renewals, and strengthen RCR’s ability to attract new tenants.

RCR achieved strong financial results attributable to the accretive infusion of nine (9) new assets, the full year impact of the thirteen (13) assets infused in calendar year 2024, and operational efficiency from both office and mall assets.

RCR reported strong topline results, with total revenues at Php11.08Billion for 2025. Earnings before Interest and Taxes (“EBIT”) amounted to Php8.03Billion, while net income stood at Php8.04Billion. These figures exclude the effect of the change in fair market value of investment properties. RCR posted a 73% EBIT and net income margin.

RCR maintained a healthy and solid financial position with Total Assets amounting to Php167.76Billion, and shareholders’ equity at Php162.19Billion. It currently has zero debt with room to leverage up to 35% of its deposited property value.

The Net Asset Value per share of RCR is at Php8.30, while earnings per share is at Php0.4742, likewise excluding the effect of the change in fair market value of investment properties.

For full year 2025, RCR distributed total dividends of Php0.4268 per share, representing the complete dividend payout for the year. Dividends declared amounted to 94% of Distributable Income, exceeding the minimum 90% distribution requirement prescribed under the REIT Law.

The Corporation likewise achieved seventeen (17) consecutive quarters of increasing regular dividends per share since IPO, underscoring RCR’s consistent performance and commitment to delivering sustainable returns to shareholders.

In terms of RCR's inclusion in various PSE indices, RCR is a constituent of the PSE Property Index, PSE Dividend Yield Index, and most recently, the 30-member PSE Index, which represents the most liquid and well-capitalized listed firms on the PSE.

The President expressed his gratitude to the Board of Directors for its guidance and leadership, as well as to Robinsons Land Corporation for its continued confidence and support through timely and strategic asset infusions. These infusions go beyond portfolio growth, it reflect RLC's strong belief in RCR, its long-term vision for value creation, and its commitment to providing RCR with high-quality, sustainable, income-generating assets that strengthen RCR's scale, stability, and resilience. Through these contributions, RLC has enabled RCR to deliver increasing returns to the shareholders while reinforcing RCR's position as one of the country's leading commercial REITs. The President also thanked the shareholders, investors, tenants, and strategic partners for their continued trust and support, which inspire RCR to pursue excellence, innovation, and long-term value creation.

The President added that despite the increasingly complex global and local operating environment, including geopolitical tensions and economic volatility stemming from ongoing conflicts in the Middle East, RCR remains committed to delivering consistent growth, sustainable returns, and strong corporate governance. Through disciplined financial management, prudent investment strategies, operational efficiencies, and strong tenant relationships, RCR shall continue to strengthen its leadership position in the Philippine REIT sector.

The Chairman then informed those present that the President of the Corporation, Mr. Jericho P. Go, shall respond to questions that were submitted by shareholders through email.

Question 1: How is artificial intelligence (AI) changing demand for office space in the Philippines, particularly in Metro Manila and major regional hubs?

In response thereto, the President explained that RCR has an office portfolio wherein majority of the tenants are coming from the Information Technology and Business Process Management ("IT-BPM") sector. The President stated that Artificial Intelligence ("AI") has affected certain jobs involving balance inquiries, status of insurance claims, approval status of credit card applications, delivery updates for packages, and the like, which have already been taken over by AI.

However, the President noted that there is a silver lining, as companies that RCR deals with, particularly in the IT-BPM sector, have pivoted with the emergence of jobs such as Prompt Engineers, Data Annotation Specialists, Content Moderation Officers, and more. Hence, according to the President, there are more gains than losses in terms of jobs.

The President further explained that due to the higher complexity of jobs created by AI, the requirements for office spaces have likewise changed. Previously, call center operators would fit within 5 square meters per seat, but today, companies require 10 to 12 square meters per seat due to the need for bigger workstations, more monitors, and collaboration spaces. These developments have redefined the use of office space.

The President added that, as a developer and operator of office spaces, RCR sees this as an advantage, as the Corporation continues to witness more growth and stronger demand for offices. While the patterns may have changed, the President emphasized that AI should not be viewed as an enemy but rather as an enabler and a tool to increase productivity. Increased productivity results in more business opportunities and, consequently, increased demand for office spaces. In this regard, the President expressed the belief that AI presents an advantage for RCR moving forward.

Question 2: How are shifts in consumer behavior affecting foot traffic, tenant mix, and long-term earnings sustainability of shopping mall operators and retail REITs in the Philippines?

The President explained that, as previously discussed, the majority of RCR's assets are malls, comprising 53% of the Corporation's portfolio. The President stated that this is a relevant discussion because the Philippines has a strong mall culture. For many Filipinos, the closest and most accessible form of leisure is going to malls for celebrations such as birthdays, anniversaries, graduations, and similar occasions. Malls remain a valuable part of day-to-day living.

The President further noted that RCR remains close to the ground in monitoring market trends. According to CBRE, food and beverage, health and wellness, lifestyle, and apparel continue to dominate the retail scene. Before the pandemic, mall allocations for food and beverage tenants were less than 10%; however, this has now increased to approximately 25%. The President observed that there has been a noticeable shift in approach and tenant mix within malls.

The President likewise addressed the impact of E-commerce on mall operations. He stated that consumers have experienced situations where clothes purchased online do not fit properly, the materials are not as expected, or shoes purchased online become uncomfortable when used. In this regard, the President emphasized the continuing value of brick-and-mortar malls, where customers are able to personally see, fit, and experience products before purchasing them.

The President also noted that the younger generation, particularly Generation Z, is considered part of the "now" generation, preferring immediate access to products rather than waiting one or two days for online orders to arrive. According to the President, this consumer behavior continues to support the relevance and growth of malls.

The President concluded that malls are here to stay and will continue to grow and evolve in terms of customer engagement. The changes in consumer behavior have, in fact, benefited RCR, as reflected in the Corporation's performance. The President added that RCR shall continue to undertake enhancements and improvements to its mall assets in order to maintain customer stickiness and attractiveness.

There being no other questions, the Chairman called for a motion to note the report of the President and for the approval of the Audited Financial Statements for the preceding fiscal year. Atty. Arnaldo moved that the report of the President be noted and that the Audited Financial Statements for the preceding fiscal year be approved as presented. Ms. Umali duly seconded the motion. Thereafter, the Chairman announced its approval.

As tabulated by the Corporate Secretary and validated by SGV, the votes for the adoption of the resolution for the noting of the President's report and the approval of the Audited Financial Statements for fiscal year ending December 31, 2025 are as follows:
